

We help you to find your correct ring size

Please print this PDF vertically onto a DIN A 4 paper.
Deactivate the option page scaling in your printer options for a correct scaled print.

Check your print accuracy by making sure that the scale measures exactly 100 mm.

Please put a ring that fits you on the circle template.
If you can see the outlines of the circle within your ring, you have found your correct ring size.

For a correct result please use an average ring that is not too broad or slim.
